

Surface San 30L

Anti-viral & anti-bacterial lemon disinfectant concentrate

- Meets the requirements of EN 14476* & EN 1276**
- Sanitises surfaces in just 30 seconds
- Makes up to 100 litres of disinfectant

Availability: 5 Litre

Proven to kill 99.9% of bacteria in just 30 seconds, Surface-San 30L is available in economic concentrated and handy ready to use formulations to suit any environment. The apply and wipe formulas contain a powerful blend of quaternary ammonium compounds designed to disinfect hard surfaces fast. Leaving a fresh and detectable lemon fragrance behind so treated areas can be identified after sanitisation.

Surface-San 30L is manufactured under an ISO 9001:2015 certified system.

Directions for use: Clean the surface to be treated prior to disinfection. Dilute the concentrated formula with up to 20 parts water and apply liberally. Leave the product to sanitise for at least 30 seconds then wipe away with a clean cloth. For best results, the concentrated formula should be freshly prepared in a clean container.

*Human coronavirus 229E (CoV 229E) (ATCC® VR-740) was independently tested with this solution to meet the requirements of EN 14476 for viral activity with a contact time of 30 seconds at 20°C, under clean conditions.

**Pseudomonas aeruginosa; Escherichia coli; Staphylococcus aureus and Enterococcus hirae were independently tested with this solution to meet the requirements of EN 1276 for bacterial activity with a contact time of 30 seconds at 20°C, under clean conditions.
